What is an ERA?

An ERA is the electronic equivalent to the Explanation of Benefits (EOBs) which insurance carriers print to paper and mail to your practice. An ERA facilitates automatic posting of payments in your dental software. This auto-posting eliminates the time consuming need for keystroke entry and reduces data entry errors. ERAs allow quicker processing of patient billing and faster payment of accounts receivable.

Recognize the benefits of electronic processing

DAISY and Emdeon have worked together to offer your practice a solution to reduce the reimbursement cycle of your dental claims and streamline your workflow. Improve your office productivity by knowing in advance which claims have been paid and in what amounts. Process your secondary claims much faster and reduce the number of days your receivables are outstanding with ERAs.

Know in advance which claims have been paid

Connectivity is now available between your office and the insurance companies through your DAISY software that interprets the ERA information and posts the information directly to the patient's account.

Payer enrollment forms: Easy as 1, 2, 3.

In addition to the enrollment process with DAISY, insurance carriers require enrollment prior to receiving ERAs electronically. Emdeon Dental has simplified this enrollment process. To access the self-service online tool go to www.EmdeonDental.com. On the left hand side click on the "Enrollment Forms" link. This will direct you to the "Payer Enrollment Forms" site, see below. For the "Line of Business" select "Dental ERA Payers" in the drop down box.

This directs you to the payer enrollment site. Click on a payer to be provided with the detailed instructions on how to proceed with the ERA enrollment registration. Key contact phone numbers are also provided should you have any questions or need assistance.
